

November 6-7, 2026

Interested In **Sponsoring?**

What We Really Want

Mentorship: Send a Representative (or two) to administer and judge a problem for students to solve. This makes the event feel both exciting and real!

Sponsorship Donation*: \$5000 (primary sponsor) or \$2500 (secondary sponsor).

What Would Be Cool

Platform/Hardware Credits: Got 'em? We'd love to use 'em!

Speakers: Want to give a presentation? Let us know.

Prizes: Have something cool you want to give the winner? We've seen everything from cash to gaming consoles.

What You Get

Exposure: Company logo on t-shirts and merchandise, outgoing announcements, and website.

Recruiting: Direct interactions with students. Resumes of interested students will be handed to each company.

Speaking Opportunities: Highlight company efforts in front of top-talent students and guests.

Discounted Lodging: Our partner hotels give us access to cheaper rates. Take advantage!

What We'll Use Your Contributions For

Merchandise: We'll provide the swag.

Food: Funds go directly to feeding everyone (and the crowd goes wild).

Travel: Money is hard for students, so we'll use our financial gifts to help get them here.

*If funding is the reason your company can't attend, we'd still like to work with you. We'll figure out a cost and support level that fits your organization. Email hello@intermountainquantum.org with questions.
